

Loss Control Program

MEGA is strongly committed to offering its members safety and loss control services that will enhance their ability to prevent and manage work related injuries and illnesses. The goals of the program are:

- Prevent Work Related Injuries
- Reduce Workers' Compensation Costs
- Promote Member Self-Sufficiency in Safety and Workers' Compensation Management

All aspects of risk management are taken into account including supervisor trainings, employee safety trainings (onsite or online), templates to facilitate the development and implementation of formal safety programs and committees, an accident investigation toolkit, and general claims management education. Solid risk management practices protect employees, reduce direct and indirect claims costs, and refocus resources to core services.

Our members have free access to the following safety and loss control services:

- Safety Management Consulting
- Onsite Safety Services
- Onsite Safety Training
- Data Reporting and Analysis
- Safety Library and Online Training

Whatever your safety and loss control needs, our professional consultants will work with you to achieve your goals and objectives.
